# Implant Solutions

Exporting from Rayscan

1. Right click on your desktop and select "new" and click on "folder."
   Rename the folder to match the patient's name.

2. Next, open the Rayscan software and in the "search" tab, select the correct dates, and type in the patient's name. Click the orange magnifying glass button to search.

3. Select the correct file and click "export." After you see a pop-up box verifying that the patient information has been added to the export tab, click "ok."
Information

Study of the patient information has been added to the Export Tab.

OK
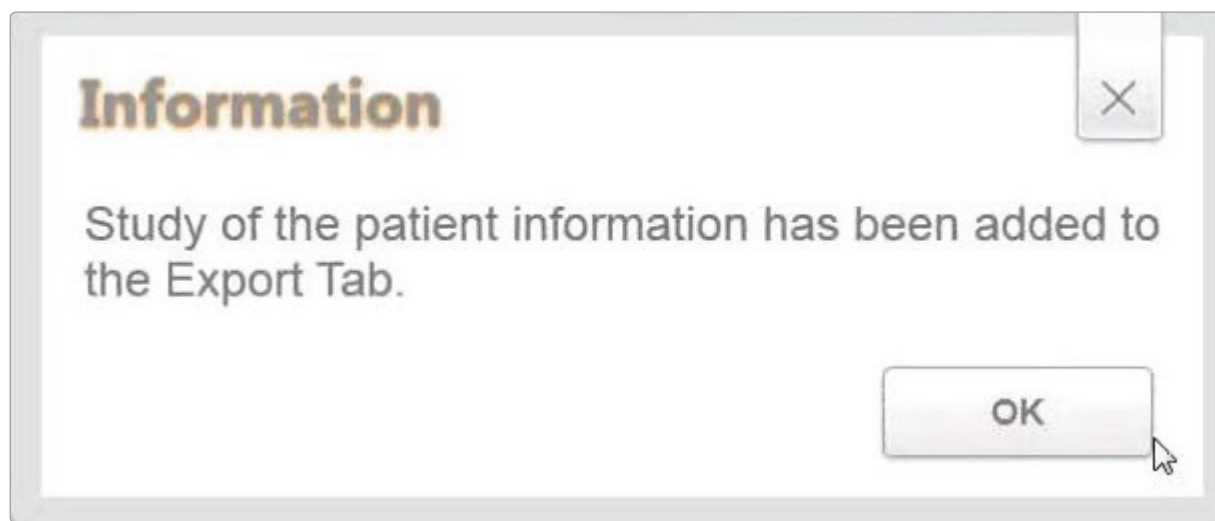

4. Next, click on the "export" tab and select the correct patient information.
   On the right-hand side, you will have different exporting options. If you need the
   media type, select "USB." For "detail path" click on the magnifying glass button.
   A pop-up will now appear for the save location. Select the folder that you made
   on the desktop and click "ok." Type in the patient's name next to "volume
   label" and for the "image format" select DICOM. Then, click on "export."
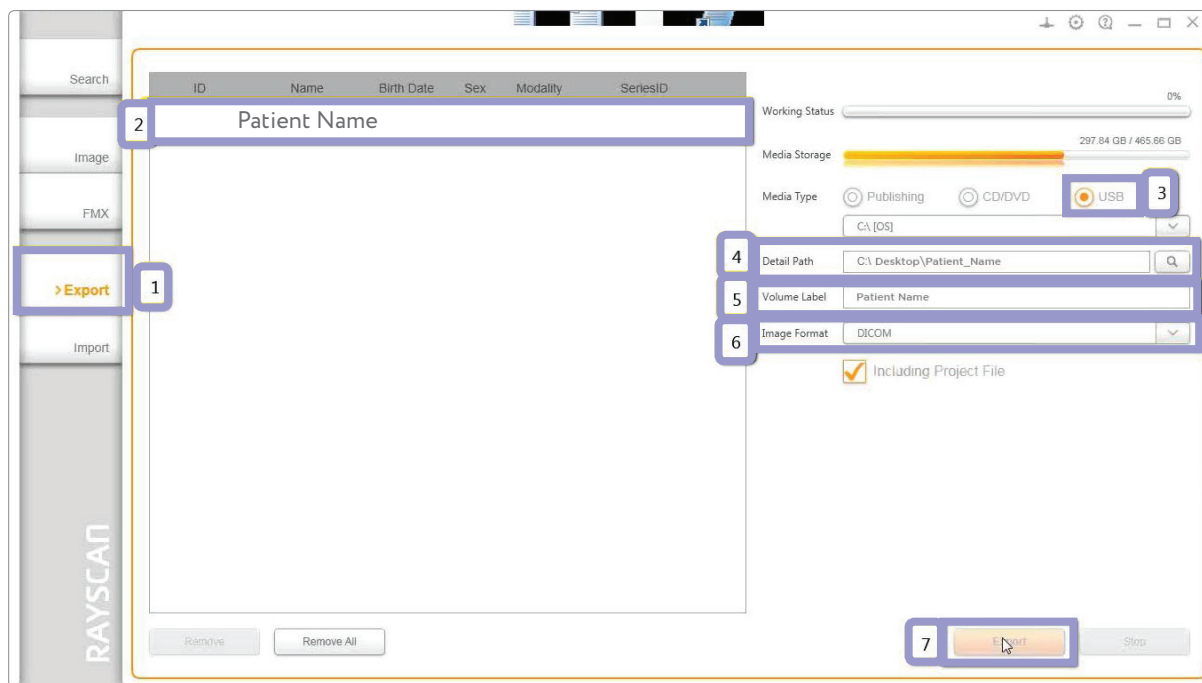

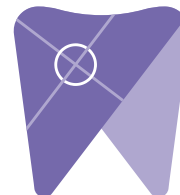

5. Once the export reaches 100%, you will get a pop-up stating it is complete. Click "ok."
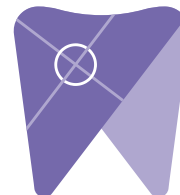

6. After the DICOM exports and saves, go to the patient folder and verify the .dcm files were exported correctly. You should see several hundred files.

7. Right click on the patient folder you created on the desktop and select "send to, compressed (zipped) folder." A duplicate folder will be made with either a zipper on it, or a blue "z."

(If your are following a Dual Scan Protocol, please zip scans individually and label accordingly; example "Patient Scan" and "Denture Scan")
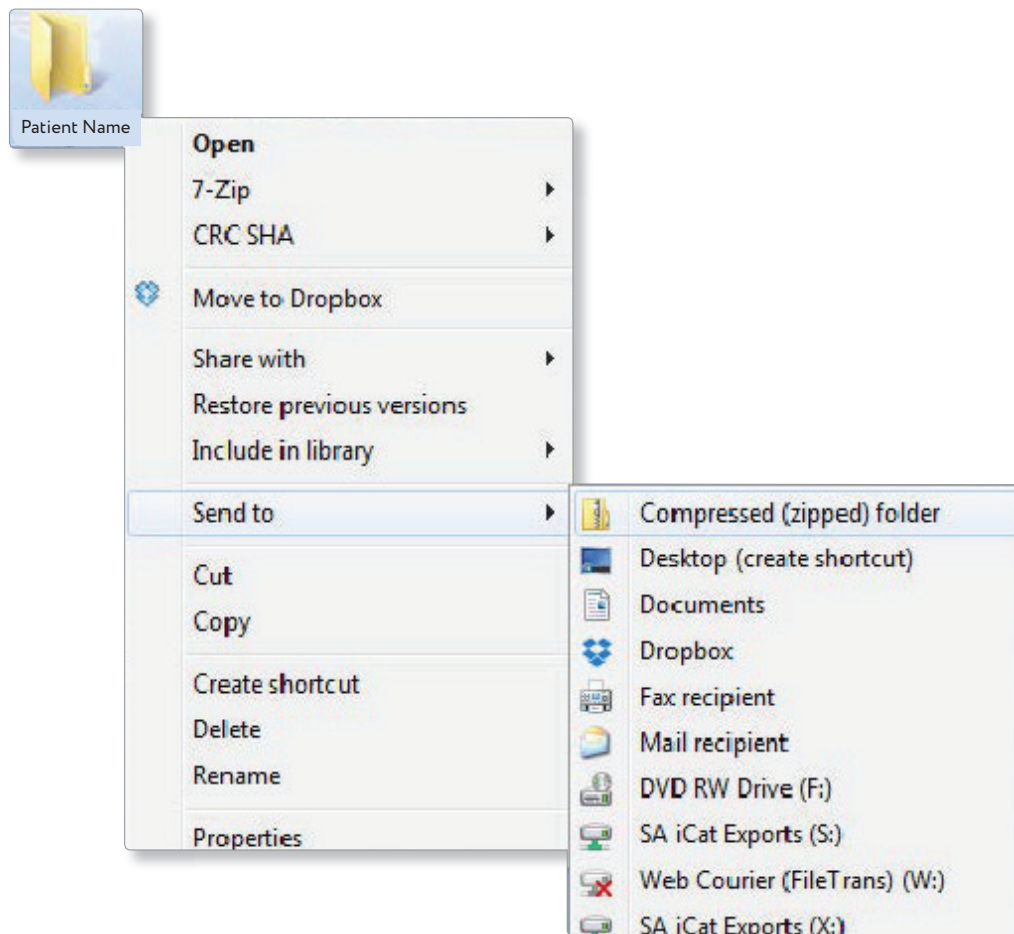

8. Visit Implant Solutions website at www.solutionsforimplants.com and select "Log in" in the top menu bar. Enter username and password and complete the following:

     1) Select "new case" and enter patient name

     2) Click on "add" next to "restorations" and select "Implant Solutions" from the group

     3) Select a product from the drown down menu

     4) Select a tooth number and click "ok"

     5) Click "add" next to "documents. " When prompted, select the zipped folder you created above. Select the "I agree to the terms and conditions of sending this case to the lab" checkbox at the bottom of the page.

     6) You will get a status update as the case uploads.

Note: If you do not have an account created, select "register" and complete the form. Implant Solutions will be notified of your registration. You will receive a confirmation email once the registration process has been completed. Contact Implant Solutions at 1.800.995.0626 if you have any questions.
